HEBE GETS HIS FIRST PURSE.

Tasso and Prince Howard Also Finish in Front.

Special to the Evening World.

GETTENBURG RACE TRACK, Feb. 12.—A keen, cold wind swept over the hilltop course this afternoon, making places in sunny corners and seats by the big stoves very desirable situations.

The track was much better than one would suppose after last night's freeze-up.

The sport began with a six furlong dash for Hester horses. Tasso was the tip and, as he was heavily backed in the city rooms, the lookers at the track made him favorite at a slight price.

Tasso won very easily from Sir Laurence, who was well placed for the place.

The second race was a bookmaker's picnic, but a number of the track picked the winner.

The third race was a handicap, and the winner was a horse named HEBE.

The fourth race was a handicap, and the winner was a horse named TASSO.

The fifth race was a handicap, and the winner was a horse named PRINCE HOWARD.

The sixth race was a handicap, and the winner was a horse named HEBE.

The seventh race was a handicap, and the winner was a horse named TASSO.

The eighth race was a handicap, and the winner was a horse named PRINCE HOWARD.

The ninth race was a handicap, and the winner was a horse named HEBE.

The tenth race was a handicap, and the winner was a horse named TASSO.

The eleventh race was a handicap, and the winner was a horse named PRINCE HOWARD.

The twelfth race was a handicap, and the winner was a horse named HEBE.

The thirteenth race was a handicap, and the winner was a horse named TASSO.

The fourteenth race was a handicap, and the winner was a horse named PRINCE HOWARD.

The fifteenth race was a handicap, and the winner was a horse named HEBE.

FULLGRAFF FREE AT LAST.

Last Indictment Against the Boodie Alderman Dismissed.

On the recommendation of District-Attorney Nicol, Judge Cowing this afternoon, in General Sessions, dismissed the indictment for bribery that has been hanging over L. Fulgraff, of the 1884 Boodie Board.

Alderman since April 13, 1888.

Mr. Nicol said in recommending the dismissal: "Fulgraff did the county some service as a witness on the several trials of those guilty with him of bribery."

Fulgraff has been living in St. Paul, Minn., for the past five years. It was through his connection and that of Alderman Bryant that the prosecuting officers were enabled to prove a case against those accused of being bribers or bribe takers.

The dismissal of the indictment against Fulgraff winds up the list of indictments against twenty-two different men in connection with the corruption in the Broadway franchise matter. Fulgraff was under \$40,000 bail.

Low Prices at a Trotter's Sale.

GLoucester, Feb. 12.—A sudden change in the weather from almost summer to coldest winter caused the attendance at Woodard & Shubert's sale here today to be very small.

Up to noon twenty-five head sold for \$2,445, an average of 97.78, and one animal, a stallion named Belmont, brought over \$1,000, the going to J. Walker Hodge, Lexington, for \$1,500.

Is He Brother or Lover?

Rosa Kelly, a pretty domestic at 158 Academy street, Jersey City, and a young man who she says is her brother, are prisoners at Jersey City Police headquarters today.

The young man was found by detective in Rosa's room, and Rosa's address caused their arrest.

The young man's name is John Kelly, and that that of his accomplice. They refuse to believe that the pair are brother and sister.

Diamonds Charged Against Capt. Berghold.

The Police Board today voted to dismiss the charges made by Standard Oil Magnate Sibbey against Police Capt. Berghold, of the West One Hundred street station.

Mr. Sibbey, who is a well known magnate in the city, is charged with having been arrested and locked up at the station Capt. Berghold had refused to allow a messenger to go to his home.

"A Bloody Line," Says John L. Leary.

WALL ST. STOCK REPORTS.

Nearly a Million Shares Changed Hands To-Day.

Realizations Forced Prices Down at the Close.

Reading and New England the Features of the Day's Trading.

Remarkable activity continues today in the stock market.

The great Reading deal has not yet been closed, and the boom of the colors, which began several days ago, is gradually lifting up the entire list.

The colors were the most active stocks in the list at today's opening, Reading leading with sales almost equal to those of yesterday.

Lockawanna was more largely featured in sales than yesterday, while the Central of New Jersey was very strong.

Reading opened at 64, last night's closing price, but slipped to 62 1/2 under heavy offerings, but recovered during first hour to 63 1/2.

There was also an active demand for all Reading bonds, Lockawanna, which closed yesterday at 104, opened at 101, advanced to 103 and held back to 102.

New Jersey Central opened at 138, an advance of 1 point over last night's closing, but slipped to 137 1/2, reacted to 137 3/4, and advanced again to 138.

New York and New England was higher and very active, and among the leading 100 a gain of 1 point, and their trading slightly.

It is estimated that 700,000 shares had changed hands, Reading figuring in the total for 150,000.

Most operators still profess to have doubts about the efficacy of the consolidation plan, and prefer to sell the market short.

Every one who is not a member of the stock exchange is anxious to cover the price up of themselves.

The trading interests represented by Prudential and Co., however, are steadily absorbing the market, and hence there is no general falling off in the price of the stocks.

The audience, however, was composed principally of police witnesses and friends of Mr. Stevenson, some of the latter being connected with establishments similar to the now defunct "Slide," which closed its doors immediately following THE EVENING WORLD'S exposure of its true character.

In the first of the afternoon a rather stout, pleasant-faced woman of some thirty years, who was also in court accompanied by several friends.

A slight sensation was created at 11:25, just before the trial began, by the entrance of Mr. Thomas L. Gould, who was variously reported as having perished in the fire at the depot, and to have died of cholera, or the effects of his basement office were auctioned off at Sixth avenue and Twenty-third street.

Mr. Gould took one of the high seats in the rear of the courtroom. His silk hat was as glossy and his very red moustache as bristling and defiant as ever. He remained only a short time, however, and left before the trial was fairly under way.

It was just 12:12 o'clock when Assistant District-Attorney P. Washburne began his opening address. He said that the charge against Mr. Stevenson also carried with it that of maintaining a public nuisance.

"In this great community," said Mr. Lynn, "it is not so much an imposition to fully remove and all the excesses arising from the social evil, but there comes a time for the public prosecutor and public authorities to call a halt and bid out these dark spots."

Mr. Lynn said that although John McGrew, an iceman, appeared as the licensee of the "Slide," he was in no way interested in the management of the place.

"The fact is," said Mr. Lynn, "that although McGrew, an iceman, appeared as the licensee of the 'Slide,' he was in no way interested in the management of the place.

TYPHUS SPREADING.

Twenty-one More Victims of the Epidemic Discovered To-Day.

All Found Among the Immigrants Landed from the Steamship Massilia.

The Infection Thus Far Confined to the East Side and to Ellis Island.

Seventy-six persons suffering with typhus fever have to-day been removed by the Health Board from tenements in Division, Essex, Monroe, Norfolk, East Twelfth, Orchard and Bleecker streets and from Ellis Island to North Brother's Island.

Officers of the Department are hard at work to-day searching for other cases, and it is estimated that the number of infected persons may be increased to 100 and possibly more.

Six cases were this forenoon discovered among the detained immigrants at Ellis Island. They were among the twenty detained from the quota of the Italian steamship Massilia. They were taken to the Reception Hospital.

Great excitement ensued at the immigrant station, where about one thousand immigrants were congregated, and many of whom were exposed to the infection.

At 1:15 o'clock this afternoon it was announced that three more cases had been discovered at 85 Norfolk street and the patients removed to the Reception Hospital.

The disease was brought to the city by the steamer passengers on the steamship Massilia, of the Fabre line, from Marseilles, Naples and Gibraltar, which arrived in this port on Feb. 10. There were 717 people in the steerage, of whom 228 were Russian refugees and about two hundred Italians. The remainder of the immigrants came from nearly all European countries.

On the ship's arrival it was found that the disease had broken out after leaving Gibraltar, four passengers having died at sea. Eleven were still ill on arrival here, and were all sent to Ellis Island, one of the sick ones being a woman who had but a few days previously given birth to a child.

Under the auspices of the United Hebrew Charities, it is stated, the immigrants were landed and partitioned out among tenements in the streets named above. The house 42 East Twelfth street was rented by the officers of the United Hebrew Charities and a large number of the immigrants were quartered there.

Leo Dann, of 50 Livingston street, was employed by the Charities to care for the sick. He found many symptoms of typhoid among his patients, and last Wednesday night decided to send some of them to the hospital.

The cases were reported to the police, who in turn notified the Bureau of Contagious Diseases.

Health inspectors visited the premises, and yesterday, when their report was made to Dr. Eason, he immediately pronounced the illness of the people to be typhus.

With great vigor, Dr. Eason's Bureau proceeded to the work of caring for these alarid ill, and to prevent the spread of the dread infection.

The officers had discovered fifty-seven cases last night, all among the passengers by the Massilia, and ten more were added this forenoon.

All the persons found ill with typhus yesterday were taken at once to the Reception Hospital, and during the night and to-day, with the ten additional patients, were removed to North Brother's Island.

In the island the sick people will be cared for in tents. It being Dr. Eason's belief that they can be treated much better in tents than in wards of the hospital.

Twenty-five new well tents have been provided today, each furnished with a floor and a stove, and coils for four persons.

The force of physicians and nurses on the island is to be increased to a sufficient number to care for all the patients, and the Health Board has arranged to increase the number of inspectors in this city, who will continue the search for cases of infection.

New arrangements have been obtained, also, for this service.

Police-men are stationed today at the door of each house where cases of typhus have been found, and no person is allowed to go in or out, except that one member of each family is allowed to come out, under certain restrictions, once a day to procure provisions.

TO PREVENT ITS SPREAD.

Extraordinary means for the suppression of the epidemic are expected to be authorized at a special meeting of the Health Board to be held to-day by President Wilson, and it is probable that the infected houses will be placed under a rigid quarantine until danger is past.

The houses where the patients have been taken will be fumigated every day.

Today's new cases were found at 5 Essex street, 85 Monroe street, and 105 Division street. Twenty-two cases were removed from three last night.

Additional quarters can be provided in cases of necessity will be received on the island, except where the patients are taken into hot-baths or other hospitals.

Efforts are being made by employees of the Health Department to locate all the persons who came over in the Massilia and who came in contact with the steamer passengers.

If their whereabouts can be ascertained they will be quarantined.

Thousands of persons have been exposed to

THREW VITRIOL IN A CROWD. 11 POLICE MATRONS NAMED.

Bauer Was Being Chastised for Annoying a Married Woman.

Appointed and Assigned to Duty by the Police Board.

Ludwig Bauer, aged twenty-two, employed as a bottle washer at one hundred and sixtieth street and Fifth avenue, was held by Justice Woods in the Horton Police Court this morning for trial on a charge of vitriol throwing.

Bauer formerly boarded in the family of Mrs. Caroline Obergluck, at 1187 Lefferts avenue, but was ejected from the household several months ago by Mr. Obergluck and his wife for paying too much attention to Mrs. Obergluck, of whom he was enamored.

It is stated, the immigrants were landed and partitioned out among tenements in the streets named above. The house 42 East Twelfth street was rented by the officers of the United Hebrew Charities and a large number of the immigrants were quartered there.
